

# A BEAD AT A TIME PROJECTS

## Travel Keychain

MATERIALS:		TOOLS:
1 Key Ring		Flat Nose Pliers
18 8mm Jump Rings		
5 12 mm Jump Rings		
<a href="#">1 ABAT-GB027</a>		
<a href="#">1 ABAT-GB032</a>		
<a href="#">1 ABAT-MB099</a>		
<a href="#">1 ABAT-MB100</a>		
<a href="#">1 ABAT-MB102</a>		

### STEPS:

#1: Start by linking 7 of the 8mm jump rings together using your round nose pliers. When done, attach the top ring to key chain separating the key chain rings and sliding the jump ring on.

#2: Attach the [Camera Dangle](#) to the end of jump rings.

#3- Attach one 12 mm jump ring onto the bead and two 8mm jump rings to each of the remaining beads. When done, you will have 4 sets of links with the bead at the end.

#4: Using your flat nose pliers, attach the remaining sets of beads to the initial chain of jump rings from the keychain.
