

## SQUARE IN A SQUARE PHOTO PILLOW

By Judi Kauffman

Turn travel memories or a photo taken in your own garden into a stylish pillow for bedroom, den, sunroom or wherever you want a dash of bright color. Purchase a simple pre-made pillow top and a piece of fabric that coordinates with the photo, a pair of silk flowers for added dimension, and in about an hour your project is complete.

### Materials:

- 085-0080 Iron-on Fabric Sheets
- Computer, ink jet printer
- Scanner (optional. If you don't have a digital camera, you'll need to scan your photos)
- \* Purchased pre-made pillow top
- \* Square of contrasting fabric that coordinates with photo & pillow (yardage determined by size of pillow)
- Beacon FabriTac glue
- Silk flowers and beads, optional

### Instructions:

1. Select and crop photo into a square. Print onto Iron-on Fabric Sheet.
2. Cut a square of contrasting fabric (pillow size will determine size of square). Fringe the edges of the fabric square. Use fabric glue to attach fringed square to the pillow front, setting the square so the corners are set at a diamond.
3. Iron the photo sheet square to the center of the fringed fabric square.
4. Option: Sew a few beads to the fabric square. Glue or sew a silk flower to the left and right sides of the fabric square as shown. Be careful not to let fabric glue drip onto the pillow, fringed fabric square, or photograph.

### For those who like to sew:

Make a box or knife-edge pillow that suits your décor. Add a seam allowance to all sides of the photo fabric square and use a quilt pattern made up of triangles or strips to complete the pillow top. Add a flange, ruffle, cording or piping. Embellish with beads and silk flowers as shown or omit these embellishments.
