Instructions:

1. Using the purple 12" x 12" fiber paper as your background, cut two strips from the Purple milled exotic single sheet (mulberry) measuring 2 1/8" x 12" and attach to background paper. Cut two strips from the Purple striped handmade paper to 1 7/8" x 12". Roll one corner of one strip. Poke hole through strip of paper and tie roll closed with purple chenille fiber. Poke three holes in remaining purple stripe paper and tie through purple chenille fiber as decorative accent.
2. Attach these strips to the top and bottom of the layout respectively. Select several different elements from the music stamp and create sheet music style accents to the strips of purple striped paper.
3. Cut strip from purple milled paper to 3 1/4" x 8" and roll lengthwise to measure 3 1/4" x 5". Once rolled, poke three holes in upper half and tie closed. Stamp music elements on this strip and then use as a half met for a photo and mount to background.
