

Make Your Own Coin Purse

Getting Started

Materials needed: Aida fabric and floss.

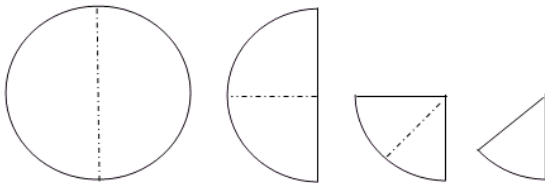

Supplies needed: scissors, a single-hole punch and a needle.

Step 1

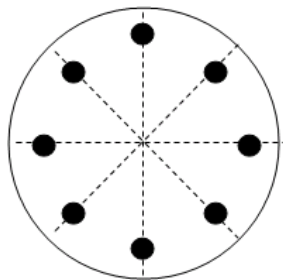

Cut a circle out of your Aida fabric.
We cut a circle 6 inches in diameter, but you can make yours as large as you'd like.

HINT: Print out a template as we did to ensure your purse is perfectly round.

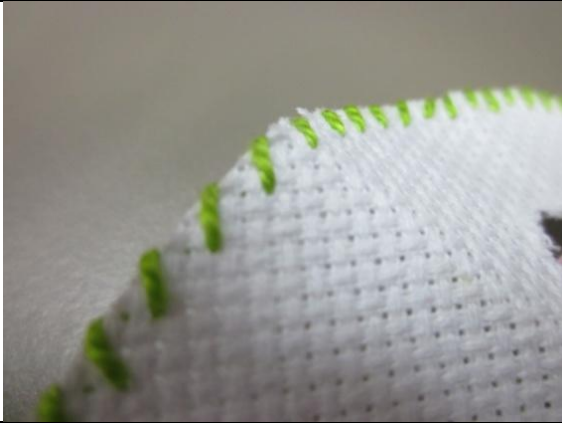

Step 2

Fold your fabric as shown.
This will help you to determine where to punch holes in the Aida.

Step 3

Punch a hole in the center of each fold.

Step 4

Finish off the edge of your fabric.
This will ensure that your Aida will not fray.

Step 5

To fold into a purse: Bring the sides in to the middle and fold the top down. Pull the floss tight so that the purse stays closed.

You're Done!

You can add any kind of decoration you'd like.
We chose a simplistic flower design.

Tie your floss in a bow and your
coin purse is ready to be filled!
