# Getting Ready

## Supplies Needed:

- Weave Wheel
- Cool Cord
- Ruler
- Scissors
- Pencil

The center ring of the Weave Wheel shows the pattern bracelet you will make. Choose from hearts, flowers, diamonds or stripes. For the purpose of this tutorial, we've chosen stripes.

Cut two 20" lengths of Cool Cord for each shape on your Weave Wheel. Use the wheel as a color guide, or choose your own colors of Cord.

**Tie a knot at the end of your Cool Cord.**

**Divide the Cord in half around a pencil.**

**Tie a knot below the pencil.**

**This will form a loop.**

**Remove the pencil from the loop.**

**Lay the loop through the center ring of the Weave Wheel.**

**Hook Cord into notches in shapes of the same color:**

**Pink Cord to pink shape, orange cord to orange shape, and so on.**

**Your wheel will resemble a jellyfish!**

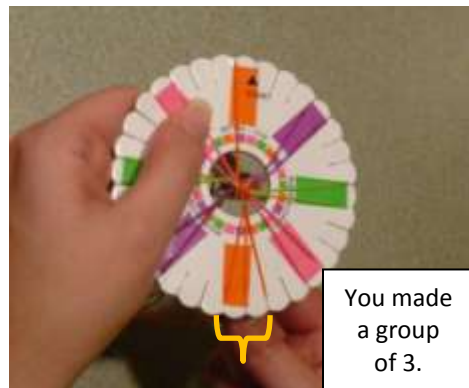

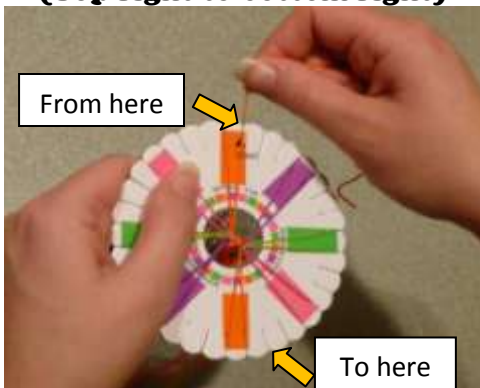

# Start Weaving

## Basic Instructions:

1. Move floss from top right to bottom right
2. Move floss from bottom left to top left
3. Rotate wheel counter-clockwise
4. Repeat steps 1-3 until finished

**Begin with the start arrow at the top.  
Unhook orange cord, and re-hook it  
in to the notch on the right of  
the orange cord below.  
(Top right to bottom right)**

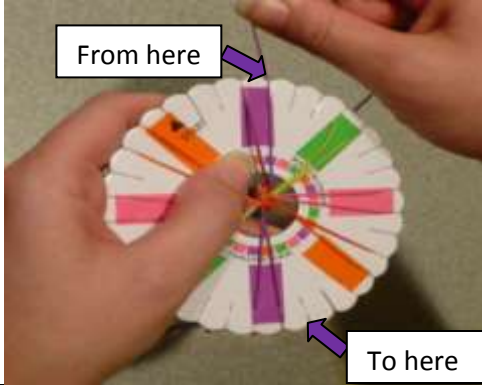

**Unhook orange cord and re-hook it  
in to the notch on the left of  
the orange cord above.  
(Bottom left to top left)**

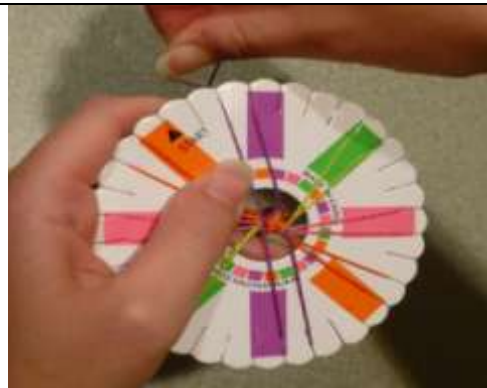

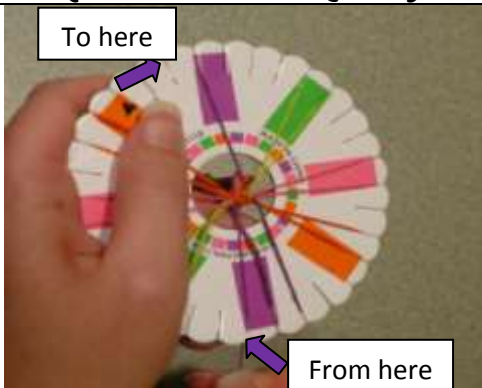

**Now, rotate your Weave Wheel counter-clockwise so the next shape is on top.**

**Repeat the process of unhooking and re-hooking Cool Cord.**

**The next shape should now be at the top.  
Unhook purple cord, and re-hook it  
in to the notch on the right of  
the purple cord below.  
(Top right to bottom right)**

**Unhook purple cord and re-hook it  
in to the notch on the left of  
the purple cord above.  
(Bottom left to top left)**

**Continue Unhooking and Re-hooking  
cord until you are satisfied with the  
length of your bracelet.**

**HINT: If you have to take a break, leave a group of  
three cords on your wheel. When you come back to your project,  
it will be easier to pick up where you left off.**

# Finishing Your Bracelet

**When you're satisfied with the length of your bracelet, unhook your cord from all of the notches on the Weave Wheel.**

**Tie a knot at the end of your finished bracelet**

# Wearing Your Bracelet

**To secure your bracelet on your wrist, pull the knot through the loop on the other end of the bracelet.**

**Keep for yourself...or share with friends!**
